

FREQUENTLY ASKED QUESTIONS

What is the Guam Low-Income Home Energy Assistance Program (LIHEAP)?

The overall program goal is to provide federally funded assistance to reduce the costs associated with home energy bills, energy crisis, and weatherization. However, for this funding year, Guam’s program is specifically designed to provide power utility debt relief to households in arrears and facing disconnection. Future allocations to Guam will then allow for the expansion of services to benefit more families.

Where does this funding come from?

The U.S. Department of Health and Human Services awarded federal funding to Guam to administer this program. The Guam Energy Office (GEO) will lead the implementation and execution of this program as a sub-recipient of the award from the Guam Department of Public Health and Social Services (DPHSS).

What are the benefits of this program?

Guam LIHEAP provides a **one-time benefit payment** of up to \$1,000 to qualifying households facing energy crisis. This amount will be paid directly to your Guam Power Authority (GPA) account to cover any arrears, late fees, disconnection fees, reconnection fees, and balances due on your GPA payment plan. Current dues may also be included at the time of payment.

You can apply for the program if:
